Testimonial

To whom it may concern,

I confirm that Pernille Bergesen has been employed by ABB AS in the period 12.06.2023 – 03.09.23 as a summer intern in our Process Automation & Energy division, Telecom department.

Pernille's main tasks were development and programming of an in-house logistics platform to enable smoother collaboration between ABB and suppliers.

Pernille is a very conscientious employee and has shown commitment and resolve during her tenure at ABB. She works independently as well as being an effective team player and comes across as reflective and energetic.

It has been a pleasure to work with Pernille whom I strongly recommend to any future potential employer.
